

**Deer Creek Elementary School – Site Council Minutes**  
**January 25, 2018**

In Attendance:

**Staff Members:** Jarvis Gomes, Tammy Estrada, Dina Christophersen , Denise Hulquist, Mike Sauers

**Parent Members:** Teresa Biedritzky, Jill Ashley

**Visitor:** Holly Paris – Aspiring Admin

**Title 1**

Finished DIBELS and there were great successes. Based on the results we will be rearranging the reading groups.

**Updates**

Portable is in and functioning. Kids are enjoying it. They say it is quiet and calm. It only needs cosmetic and outside work until it is completely done. No answer yet about when the fence will be put up. They will need to do landscaping first.

**Capital Improvement**

We were supposed to have a vestibule installed. Assessing what would work best for our school. Instead a button will be installed in the office that will close the garage door, the metal window door and shut the two hallway doors. They are also going to install tempered glass on the outside doors. The big entryway doors only not classroom windows. Next step is to install classroom doors.

**Parking Lot Water**

All the water that is running through the parking lot is due to the spring water that comes from Bull Mountain. The water is not due to a leak in a sprinkler system. Jarvis has been talking to District to see how we can redirect the water.

**In-service is Tomorrow**

Teachers will spend 1½ hour at Deer Creek talking about math expression and training. Mike will talk about an Individual Problem Solving plan. This plan is about moving a student between General Ed to Sped. They will also work on goals, team time, and then go to TuHS. At the High School they will listen to Dr. Landis from Apple who is going to talk about technology and education. Finally they will have a Staff debrief.

**Report cards**

They will go home Friday, 2/9.

**Jump Start Program**

This is a summer program for incoming kinders. It is intended for non-preschool attenders but other children can also be eligible. It is to help students to be ready to start kindergarten in the fall. Not sure who will be teaching the classes. It could be Kindergarten teachers or not.

**Smarter Balance Testing**

Testing is late this year. It is scheduled for the 2<sup>nd</sup> and 3<sup>rd</sup> week in May for 3-5 grades. This will give the students more opportunity for class time to help them prepare. Testing late cuts down on the testing time.
